A CUSTOMIZED SOLUTION

Ulbrichts Optio and Optio+ helmet allies the performance of Polytitanium and superior protection compared to competitors helmets on the market. While stopping a projectile, it significantly reduces trauma upon impact (VPAM), ensuring thus to the operator to be truly protected.

Ulbrichts helmets are uni-size, and can adjust to All, due to their "Quick Size System" tightening wheel, which make them flexible and very comfortable.

With five designs available, Ulbrichts helmets come with a wide range of accessories, including a Fortis plate capable of stopping 7.62 x 51 and 7.62 x 39 ammunition.

As a result, Ulbrichts helmets are the ideal protection solution for intervention forces.

THESE PRODUCTS ARE EXCLUSIVELY DEDICATED GOVERNMENT AGENCIES,
PRICES PROVIDED ON DEMAND FOR QUOTATION

PLATE CARRIER VESTS

POLICE

BREATHABLE SHIRT WITH BALLISTIC PROTECTION

PREVENT DELOZA

Ref. PB40010

Discreet bodywear, designed to ensure ease of movement and optimal thermal regulation.

The shirt provides enhanced breathability while offering effective protection against knife attacks and standard handgun projectiles.

Available in 2XS to 5XL sizes

FOR GOVERNMENT AGENCIES ONLY

VESTE POL/GEN FIRECAT

PREVENT DELOZA

Ref. PB40020

The vest is designed to integrate ballistic inserts and plates (combined or separate), depending on the desired level of protection. Adjustable and fit-close to the body, it counts technology features for enhanced breathability while allowing a great ease of movement. In addition to this, its large MOLLE system, enables users to customize their equipment.

Color options:

Available in 2XS to 5XL sizes

OPTICS AND ACCESSORIES

RMS-X

SHIELD SIGHTS

Ref. OPNC60016

Color options:

The RMSx reflex sight lens is dedicated to competitive shooters. The lens has been designed 80% larger than for the rest of the range to allow faster target acquisition in various scenarios, by reducing aiming time while in movement or static shooting conditions.

Compatible with night vision.

Available in 4MOA and 8MOA red dot sizes

Price 396,90 € excl. VAT

RMS 2

SHIELD SIGHTS

Ref. OPNC60013

Robust and lightweight, the RMS2 possesses an ultra-fast automatic brightness adjustment feature, that contributes to clearer and faster targeting, adapting to the environment.

Compatible with night vision.

Available in 4MOA and 8MOA red dot sizes

Price 325,35 € excl. VAT

RMS-C

SHIELD SIGHTS

Ref. OPNC60014

RMS-C system is ideal for compact handguns, as it combines robustness, lightweight and compact size.

Compatible with night vision.

Available in 4MOA and 8MOA red dot sizes

Price 356,40 € excl. VAT

RMS-W

SHIELD SIGHTS

Ref. OPNC60015

RMS-W is a water and hostile environment resistant system.

Compatible with night vision.

CHRONOGRAPHE XERO C1 PRO

GARMIN
Ref. ENC30077

Projectile velocity is the most important input for ballistic calculations. The ballistic chronograph is the ideal tool for measuring it. Whether you're at the range with your firearm or in the woods with your bow, Garmin's Xero C1 Pro chronograph gives you the speed data you need to perfect your shooting.

- Measures projectile speed from 30 to 1,524 mps.
- Simple to use with its button design.
- Pair your device with the ShotView™ smartphone app to track your shots, measure your gaps and much more.
- Designed to withstand the elements with an IPX7 water resistance rating.
- Its compact design fits in your back pocket and is easy to install.
- With 2,000 shots, or 6 hours of autonomy, you can take your time at the range.
- The device can measure projectile velocities from 30 to 1,524 mps for bullets, arrows, shot, airsoft pellets, lead pellets and paintballs.

M.O.I EQUIPMENTS

DRÄGER DRUGCHECK 3000

DRÄGER
Ref. EP90011

Use the Dräger DrugCheck 3000 to find out within minutes if a person recently consumed certain drugs. The compact and quick saliva (oral fluid) based drug test yields reliable results affordably and easily. The non-invasive drug test kit does not require electricity and can therefore be used anywhere.

DRÄGER ALCOTEST 6000

DRÄGER
Ref. EP90010

The tried and tested electro-chemical Dräger sensor in the Alcotest 6000 is distinguished by its very fast response times and a long service life. It operates with extreme precision and reliability. The analysis is reliable even at temperatures of -5 to +50 °C / 23 to 122 °F. The sensor also delivers reliable results quickly in case of a high alcohol content, for both active and passive measurements.

CORPORATE SAFETY DEVISE

FILTERING ESCAPE HOOD

DRÄGER

Ref. ENC30036

The filtering escape hoods were developed placing the focus on the fastest possible escape. Optimized operation and wearing comfort, a robust case and a sealed filter ensure protection from toxic industrial and/or fire-related gases, vapours and particles for at least 15 minutes. Particles and smoke are filtered by the glass microfiber filter. The hood covers the entire head, including the eyes, protecting against particles, toxic gases, vapors, and chemical liquids, as well as heat, sparks, and flames. It provides clear vision through its panoramic visor.

Single-use hood, with a lifespan of 16 years subject to a filter exchange required every 8 years.
